PUBLISHED WEEKLY

SIERRA MADRE, LOS ANGELES COUNTY, CALIFORNIA, FRIDAY, JANUARY 12, 1917

VOL. XI, NO. 15

TABLE LIQUOR LICENSE APPLICATION IS PRESENTED TO THE CITY TRUSTEES

Unusual interest was injected into last evening's meeting of the city trustees by the filing of a petition for a table liquor license by Collins & Fay, proprietors of Sierra Madre Inn. No final action could be taken, but an ordinance was introduced to amend the present liquor ordinance so as to permit the granting of table license by the board.

The new ordinance cannot be acted upon before the next regular meeting of the board, on January 25. Present prospects point to a large attendance and an interesting session at that time.

Sparring Match

At the opening of the session Chairman Dietz and Trustees Hawks and Caskey were the only members present. After the procedure necessary to get action had been discussed, Trustee Hawks said he believed the petition should be granted and he moved that the city attorney be instructed to draft an amendment to the present liquor ordinance which would permit the granting of such a license. The motion failed for want of a second.

Trustee Caskey said he believed no action should be taken until all members of the board were present and moved that the petition be tabled until such a time. The motion failed for lack of a second.

Some disposition had to be made of the petition, so it was finally referred to the ordinance committee, of which Trustee Sperry is chairman.

Mrs. Collins was insistent on prompt action. She said the Inn would have to close unless the petition is granted, as it cannot be made to pay otherwise.

Trustee Sperry made a timely appearance just then. Chairman Dietz explained the situation to him and he moved a recess of two minutes to permit the committee a chance to consult, and upon the motion being adopted he and Trustee Hawks talked a moment with Attorney Montgomery in the marshal's office.

Mr. Sperry then moved that the attorney be instructed to prepare an amendment to the present ordinance making possible the granting of a table license. The motion carried upon the affirmative vote of Messrs. Sperry and Hawks.

Attorney Montgomery drew up an amendment to conform to the suggestions of the committee. It permits the granting of table licenses to hotels of 25 or more rooms for the serving of vinous, malt or spirituous liquors with bona fide meals, the license to be granted only until the first of the following January, and with the necessity of a new application being made each year for a new license, and to be revocable at any time.

The ordinance was introduced and placed on the calendar for the next regular meeting on January 25.

The question was raised as to whether this ordinance would merely provide for the granting of the present petition or open the way for other licenses as well. Trustee Sperry said it was the intent to limit it to the Inn only. Trustee Caskey called attention to the fact that nothing but general legislation could be enacted and that equal terms must be provided for all applicants who can meet the specification of the ordinance.

Street Trees Ordered Out

All trees standing in public roadways inside the city limits except those on Auburn Avenue which are protected by the deed making the street public property, were ordered removed by the street superintendent. The action was taken following a discussion of the city's liability in case of accident from collision with one of them. The best obtainable opinion was that if any public official is liable it is the street superintendent. Harvey Steinberger said in that case any person wishing his job could have it at once.

Action was based not so much on the question of liability as on the probabilities of accidents due to the increasing number of autos. It was pointed out that when the question was submitted to popular vote a few years ago the number of autos was much smaller than now. The menace of blinding headlights is always present, and increases as the number of autos increases.

Trim Your Trees

The prevalence of untrimmed street trees and low-hanging branches in parkings all over town was also discussed. The city budget not providing funds for such work, it was finally put up to owners of abutting property. An old ordinance was discovered which requires property owners to keep trees in front of their land trimmed at least eight feet above the ground, except in the case of young trees not over ten feet high. Another ordinance which prohibits any cutting of trees without a permit was suspended to allow such action.

Must Have Authority

Appearance among the monthly grist of bills of some items in department purchases which did not seem necessary, brought to the minds of the trustees the fact that the system of having one of the trustees act as purchasing agent to act on all but emergency purchases has fallen into disuse. The items in doubt were held up pending investigation. It was further decided that all purchase orders must be signed by Trustee Hawks as purchasing agent, before the bills were passed upon by the board. City employees are to be given notice that bills for unauthorized expenditures will not be paid by the board.

BAND APPEAL BRINGS CASH

DONATIONS TO BAND FUND HAVE BEGUN TO COME IN AT LIVELY RATE

Contributions for the fund to put the Sierra Madre Band on a sound financial footing have been coming at a gratifying rate since the mailing of the circular letters by the general committee a few days ago. Appeal was made for \$600 to pay off the debt, provide uniforms and some minor items. The appeal in the letter stated the situation practically in the same terms as appeared in the News several weeks ago at the time of the appointment of the campaign committee.

Up to yesterday noon, Chairman Jones reported that more than \$50 had been brought in simply as a result of the mail appeal and without any personal solicitation. It is hoped that a large part of the fund will come in that way so the committee may be relieved so far as possible of solicitation work. Of course if any prospective contributors wish more detailed information than has been printed it may be obtained from any of the committee members.

Contributions can also be given to any member of the committee in person or by mail.

Names of contributors will be published in next week's issue of the News. The list will be continued as it grows up to the close of the campaign.

Members of the general committee having the financial campaign in charge are: C. W. Jones, chairman; Arthur Johnson, Jr., secretary; M. D. Welscher, treasurer; Mrs. T. H. Flather, Miss Ethel Powell, Messrs. Greer Caskey, Wm. Dennison, G. L. Kelly, Carlton J. Pegler.

THOMAS HENDERSON INJURED BY FALL

A Wichita, Kansas, paper contained the following about Tom Henderson, formerly a resident of Sierra Madre:

Thomas Henderson, 30 years old, an employe of the Standard Plate & Boiler Co., at Lorena, fell 50 feet from the top of an oil tank Tuesday night, injuring his back and arm. His condition became so serious that he was taken to St. Francis hospital for treatment. It is reported that no bones were broken, but that he was in a critical condition. He has a wife and son in Lorena.

HAMILTON IS NEW CHAIRMAN

1ST DISTRICT SUPERVISOR ELECTED HEAD OF THE COUNTY BOARD

Supervisor J. J. Hamilton of this district was installed as the new chairman of the board of supervisors on Monday. His selection to the position brings a feeling of satisfaction to all real friends of good government in the county.

Mr. Hamilton has been the best friend of real efficiency at the court house. His remarks on assuming the chairmanship are an excellent index of the spirit of his work. They were addressed to his fellow supervisors, other county employes and to the citizens of the county, and were thought worthy of reproducing here. Mr. Hamilton said: GENTLEMEN OF THE BOARD OF SUPERVISORS:

You are the common council of Greater Los Angeles. You are the only medium through which this great community, with its 37 cities and its thickly populated surrounding territory, can act together for the advancement of their common interests. You are the managing directors of a business which handles \$20,000,000 a year. The public looks to you for first class management and competent leadership. To that end I ask you to come to all sessions promptly at the hour of meeting and to be present at all times, so that the board may have the benefit of your judgment on all questions and dispatch its business rapidly and efficiently.

FELLOW EMPLOYEES:

Public business can and should be better managed than private business. Every request from a citizen or stranger, whether received by mail, messenger, telegraph or telephone, or made in person, should receive immediate, efficient and courteous attention.

If the request be made to the wrong department, the applicant should be set right and assisted in getting attention without red tape or delay. We should be even more desirous of improving and increasing the county service, and reducing its cost, than those connected with a private concern.

County employment should be a guarantee of high efficiency so that anyone leaving the county service will have no difficulty in (Continued on Page 3)

FRED COPPS IS BADLY INJURED

AUTO ROLLS DOWN SIDE OF MOUNTAIN ROAD EMBANKMENT

Fred Copps of Sierra Madre, lies at the Santa Ana hospital in serious condition as the result of a mysterious auto accident in which he was a participant last Friday. In company with F. H. Long of Pasadena he was driving down what is known as the Trabuco grade, 20 miles from Santa Ana. At the foot of the grade the machine went off the road for some unexplained reason, turning over twice. Both men were rendered unconscious by injuries sustained and lay an hour or more by their machine before they were picked up by passing auto drivers and taken to Santa Ana.

So far neither has recovered sufficiently to tell how the accident happened. Mr. Long was able to be removed to his home in Pasadena, but it is reported Mr. Copp will have to remain in the hospital a week or more before he can be moved.

Mr. Copp's injuries consisted of a bad cut over the eye, a broken lower jaw and numerous bruises. It was at first thought his nose was broken but that was found to be a mistake.

CONGREGATIONAL CHURCH

Rev. W. H. Alexander will preach at the morning service of the Congregational Church. The evening services will be conducted by the Christian Endeavor Societies.

The Junior, Intermediate and Senior Christian Endeavor Societies are to hold a convention on the 13 and 14th of January, assisted by five of the county Endeavor officials. The program will be as follows:

Saturday, Junior parade from church at 10:30 A. M. and then rally at Carter's Camp at 2:30 P. M. Senior and Intermediate banquet at 7:00 P. M. Sunday Senior Sunrise service on Collin's Hill at 6:30 A. M. Sunday School and church service as usual in the morning. Official board meeting in the afternoon, joint Junior, Intermediate and Senior meeting with the church at 7:00 P. M. All are cordially invited to join to help make it a very profitable time for us all.

Mrs. L. L. Krebs attended a tea given by Mrs. James W. Foley at the Alexandria on Monday for twelve friends of Mrs. Coe of Portland.

CHURCH YEAR IS PROSPEROUS

CONGREGATIONAL CHURCH MEMBERS HOLD THEIR ANNUAL MEETING

Members of the Congregational Church met Wednesday evening in annual meeting. The session began with a delicious dinner served by the ladies of the Aid Society, and this was followed by the business meeting.

Reports for the various departments of the church were made as follows: Deacons, J. C. Dickson; Directors, Howard Hill; Treasurer, Greer Caskey; Benevolence, Miss Hilda Caley; Sunday School, H. W. Timm; Home Dept., Mrs. Stubbins; Cradle Roll, Mrs. G. B. Morgridge; Christian Endeavor, Miss Verna Trible; Intermediate, Earl Adams; Aid Society, Mmes. Walker and Dickson; Missionary Society, Mrs. Stubbins; Auditor, W. S. Hull.

Financial Reports

In the report of the clerk, H. W. Timm, a resume of the various financial reports was given. It showed a balance on hand at the beginning of 1916 in all departments of \$306, and at the close of the year of \$467. The expenditures during the year in the various departments were: Sunday School, \$253; Christian Endeavor, \$40; Ladies' Aid Society, \$255; Missionary Society, \$72; Benevolence Fund, \$244; Church, \$2510.

The membership roll showed a total at the end of the year of 141 members.

C. W. Jones who was named moderator of the meeting reported that the pulpit committee had been hard at work but had not yet found a man who was available whom they would recommend for the pastorate to succeed Rev. Fred Staff who resigned in November. The church has been fortunate, however, in having pulpits supplied of an unusually high grade, so that interest in the services has been maintained unexpectedly well.

By an amendment to the by-laws, the number of directors was increased from three to five and Dr. R. H. Mackerras and F. D. R. Moore were elected to the newly created positions, to serve with the three elected at the November meeting.

SIERRA MADRE BIRDS SWEEP THE FIELD

Miss Fletcher's Black Orpingtons Win Against Strong Competition

While the boosters are talking about winning prizes and advertising the town, it will be in order to pause long enough to doff their hats to Miss Frances Fletcher of Laurel Avenue, who has just won high honors at the Los Angeles poultry show with her famous Black Orpingtons.

Miss Fletcher entered five of her birds. They were awarded the following prizes: three specials, first on cock, first and third for hen, second for cockerel and first for pullet.

The showing of Black Orpingtons at the show was said to be the best ever seen in California. To win in the face of such competition is a high honor. It will draw attention to Sierra Madre among thousands of poultry fanciers, as well as others who saw the exhibition in Los Angeles.

HAND LAUNDRY STARTED

Mr. Ed. Wheeler, late of Modina and San Francisco has opened a hand laundry in Sierra Madre. Mr. Wheeler thoroughly understands the work and promises the people here very high class work.

getting good openings elsewhere. FELLOW CITIZENS OF LOS ANGELES COUNTY:

The county business is yours. The money we spend is your hard earned cash. Your suggestions as individual citizens, and those of your newspaper press, your civic organizations, your chambers of commerce, your woman's clubs, your labor organizations, your universities, colleges, schools and churches, will always be welcomed by this board and in every department of the county government.

You are especially welcome before the board of supervisors on Mondays, which are our days for public hearings. We only ask, the supervisors being busy men, bearing heavy burdens of responsibility and work, you say your say briefly and as courteously as you will yourself be treated.

This board will do its utmost to give you dollar for dollar for the taxes you pay. It is the county's policy so to do, and so to conduct your public affairs that greater Los Angeles will be the best and safest place in the world to live, work and play, and so that there will always be abundant employment here for both labor and capital.

PROTECTION OF BIRDS UNDER STATE LAW

Deputy Game Warden Writes on Killing of Birds Reported in the News

Dept. of Biology
Long Beach High School,
Jan. 1, 1917.

Editor, Sierra Madre News.
As a representative of the Los Angeles County Fish and Game Warden's office, I write in answer to Mr. F. O. Nichols' letter published in the columns of your paper of last week.

The boys who are engaged in killing the song birds, mocking birds, black birds, gold finches, etc., with air guns and sling shots are committing a dire violation of the Fish and Game laws of California and are subject to a fine of \$25.00 and imprisonment. These beautiful birds are of great economic importance as well as possessing an aesthetic beauty.

I sincerely hope that you will publish this letter as a warning and assist me in the protection of our feathered friends from the mountains to the sea, otherwise I will be compelled to report the same to the Commission.

Very truly yours,
ALFRED COOKMAN

PHONE OR BRING IN NEWS

Practically every reader of the News knows some item of news that would be of interest to the rest of our readers. A visitor on an accident, a birth, a wedding, a social gathering—something that would make an interesting news local. We will greatly appreciate it if all of our friends will remember to phone or bring in news items that come to their attention. It is the only way a newspaper has to learn the news, and the more news we get from each reader, the more interesting will the paper be to all. Do not be bashful and imagine that the news you know is not important. We want it and will thank you if you will be thoughtful enough to bring or phone it in. Phone Black 42.

NEW CADMAN SUITE ON SYMPHONY LIST

Music Based on American Indian Melodies Will be Heard for First Time Next Week

At every concert of the Los Angeles Symphony Orchestra this season there is some feature of special popular interest. At the next pair of concerts, Friday, January 19th and Saturday January 20th, there is the unusual novelty of the performance of an orchestral work which may take its place along side of similar works by McDowell and Herbert.

This is the suite of five movements by Charles Wakefield Cadman. This is the first performance of it as the performance was delayed until Mr. Cadman could be in Los Angeles to hear it in rehearsal as he wants to hear it first in complete form, conducted by the director of the orchestra, Mr. Tandler.

Mr. Cadman had requests to give the first performance to Eastern Orchestras, and even as far away as Petrograd (late St. Petersburg) there came a request for it, but the composer was loyal to his new home-city and kept it for the Los Angeles orchestra.

The name of this work is the "Thunderbird," suite. Some time ago, Mr. Cadman was engaged in writing incidental music for a drama by Norman Geddes, called "The Thunderbird." The play is based on a Black-foot Indian story and, appropriately, Mr. Cadman has used for the five movements of the suite tunes used by the same tribe.

The standard music based on Indian tunes and developed along modern art lines has been the McDowell "Indian Suite." It will be interesting to see how near Mr. Cadman comes to the greatest American composer in this work. That the Los Angeles orchestra attendants have the opportunity to hear this work first is a rare and unusual treat. Seats at this concert will be at a premium.

The other numbers on the program are the Schumann "Manfred" overture, which is deep and psychological music; and the symphony Goldmarks "Rustic Wedding."

LECTURE ON BURNS

The lecture on Burns, the Scotch poet, which Dr. James McLaren presents at the Club house, Monday evening, January 22, will be open to the public, the Woman's Club generously giving this opportunity to the community to enjoy one of its programs which will be of interest to all lovers of the beloved Scotch bard.

Dr. McLaren needs no introduction here, his ability as a writer and orator being known in Sierra Madre where he has been heard before. Among the many lectures which Dr. McLaren presents to the public through lyceum and Chatauqua circuits, his lecture on Burns is considered one of his best. As a Scotchman he is thoroughly at home. Adding interest to the evening's program will be Scotch songs in medley, duet and solo form, Mrs. T. H. Flather having arranged this part of the program which will begin at 8 o'clock.

ILLUSTRATED TALK ON FLOOD CONTROL

Mr. Buck Throws Much Light on Possibilities of Preventing Recurrence of Losses

Those people who attended the open meeting of the Board of Trade Monday evening were treated to an illuminating discourse on the subject of flood control by Mr. C. C. Buck of Los Angeles. Mr. Buck presented a large number of stereopticon pictures showing the result of various forms of protection devices. He paid particular attention to check dams.

Pictures were shown of the experimental work in Haines Canyon, and of work which has stood the test of years in foreign countries.

These pictures showed how a mere retarding of the velocity without diminishing the volume of the storm flow greatly reduces the bad effects of storms in mountain streams.

Cost and Results

After getting the best counsel possible for the flood control program, the supervisors have adopted plans which call for a total of \$4,500,000. This may seem like a large amount, but it is small when compared with the loss of \$21,000,000 worth of property in Los Angeles county from floods since 1910. Since 1907 the loss has averaged more than \$5,000,000 a year. This is real loss—the property is wiped off the assessment books of Los Angeles county.

Following the talk there was some talk, particularly about the beneficial effect of the flood control on the conservation of the mountain water supply.

SILVER CUP DANCE RED CROSS BENEFIT

To fittingly celebrate the event of winning the Silver Cup offered by Miss Mabel Boardman for largest membership in proportion to population the local chapter will give a jubilee dance at the woman's club house on Friday evening, January 26th.

The cup which is now on exhibition in the News window, will on the night of the dance occupy a prominent position in the club house.

The proceeds of the dance will be used as usual by the local chapter in furthering the ends of the Red Cross work and promises to be one of the largest social affairs this winter in Sierra Madre.

Refreshments will be served during the intermission and punch will also be served during the entire evening. Fuller particulars in the next issue of the News.

ONE LAW THAT SHOULD BE REPEALED PRONTO

Proposals to repeal the foolish California law which limits bequests to charitable or educational institutions to one-third of an estate and makes them conditional on at least two-thirds being left to individuals, are meeting with favor almost everywhere. A bill to that effect by Senator Chamberlain of Los Angeles is attracting much favorable attention, and it seems to be assured of passage as it deserves. Many legislators, educators and prominent business men of the state have gone on record as favoring such a measure. It will be remembered that the Sierra Madre Board of Trade adopted a resolution unanimously urging removal of this restriction on bequests after hearing the matter presented by Dr. J. M. Lee.

There is no question about the present law, which was adopted 30 years ago, having many undesirable effects, as well as failing to accomplish the apparent purpose aimed at. The law has prevented the making of many large bequests to schools, colleges, hospitals and other public institutions by Californians of wealth. It does not matter that a man may have no known relatives, or none who are fit to be entrusted with wealth. Two-thirds of his estate must be given to individuals before he can give the remainder to any worthy public cause, no matter how great the popular benefit might appear. Furthermore, Californians of wealth cannot do for California institutions what non-residents can do if they feel so inclined. If a Californian wishes to leave the bulk of his estate to a hospital, library, museum, park, orphanage, college, or any other such worthy cause, he must find some way of evading the law. The recent example of Dr. Norman Bridge who established his legal residence in Chicago so that he could do as he pleased with his estate, is the most prominent in the public mind. Other people of wealth who loved California less might be more likely to not only establish their legal residence elsewhere, but to leave their wealth elsewhere.

This old law has actually had the effect of keeping wealth out of California. People of means have been known to be deterred from establishing their residence in and bringing their wealth to this state because of that restriction on their bequests.

If the makers of the law thought they could compel people to leave their fortunes to their families when they might otherwise be tempted to slight them by reason of some whim or prejudice, they failed of the purpose. There is nothing to prevent bequests to other individuals than relatives. There are various other ways in which a man may deprive his family of a share of his estate if he really so desires.

Very little opposition has been found by Dr. Lee in his correspondence with a great variety of men on the subject. No one seems to pay any attention to the fallacious theory of protection to members of the family. Some opposition seems to be felt among men or agencies which might profit through the management of large trust funds placed in their hands by reason of a testators lack of confidence in his legatees' ability to manage their own affairs. And the only other source of opposition is a few people who profess to fear the effect of the accumulation of large foundations, especially when given for educational purposes and having some sort of string attached, which might in some remote manner, tend to corrupt the sources of education in the state. But of serious opposition, there appears to be none.

California needs great public institutions of many varieties. Many of them cannot be hoped for in many years if they must be provided for out of public revenues. The only way apparent to secure them is to remove this foolish restriction which would permit public spirited men of wealth to do what is done in most other states, and present them to the public. The law should be repealed.

JOHN BARLEYCORN IS ON THE RUN

This has been a hard week for the liquor people. One of the hardest blows in years has fallen and another is just ready to fall, is falling in fact.

First comes the supreme court of the United States in affirmation of the Webb-Kenyon law which prevents the nullifying of state prohibition laws through use of the Interstate Commerce law. These means that a state which votes dry cannot be made wet by the wetness of other states. It will put an end to all grounds for the statement that more liquor is used in dry than in wet states.

Next comes the senate of the United States, adopting the Bankhead bill to prohibit the circulation by mail of periodicals or circulars containing liquor advertising in such states as prohibit the publication of such matter. The house bill by Congressman Randall of this district making similar restrictions, has already been favorably reported out of committee and seems assured of passage.

The bill to make the District of Columbia dry seems to have a chance of passage in the face of a bitter fight.

In all the state capitals the legislatures are at work on bills of dry tendency. Wet states are going dry and dry states are becoming more so.

There is not a single ray of light coming through the clouds of gloom hovering over the liquor camps. The nation is going dry so fast that everyone is **W**arprised at the suddenness of its completion.

RED CROSS NOTES

After the busy holiday season when the usual Red Cross meeting was postponed until Tuesday of this week, the chapter met with quite a few present, willing and eager to take up again the chapter's work.

The ladies of the chapter have decided to purchase a tea service and on regular chapter meeting days to serve to the general public tea and wafers, charging a small sum for the same which will help fill the coffers of the organization.

Among the work now being done is the saving of rags for rag rugs. Help is asked for the coloring of the balls of rags when sewed. Orders for rags may be sent in to the chapter and any color desired, obtained. Anyone willing to help with this work will be welcome at the chapter rooms on Baldwin Avenue, every second and fourth Tuesdays of the month.

A generous donation of twenty five dollars has been sent by the local chapter to Washington headquarters for general European relief.

Owing to the increased cost of paper etc, following the example of many publications, the Red Cross Magazine has made its subscription price of one dollar a year independent of membership dues of the chapter. The dues for a Red Cross member are one dollar a year, this only includes privileges as a member of the chapter and if desirous of the magazine, an additional dollar is necessary.

Members will be notified by the Secretary, Miss Blumer, when the time comes due for a renewal of membership. Prompt payment is asked both for the magazine and membership dues.

DO YOU want a loan on your Real Estate? Any amount! See the First National Bank.

"TARA GWIN" THE NATIONAL NON-ALCOHOLIC WINE

Is the only unfermented wine that meets the demand of the physical economy for a true stimulant. The large percentage of carbohydrate present in TARA GWIN is regulated to meet the demand of the myocardium and to re-establish and maintain the level of the sugar content of the blood. The nutritive and reconstructive effect coupled with its true stimulating property and action upon the overtaxed and impaired heart-musculature make this unfermented wine the standard national table drink and stimulant for social functions, and of the greatest possible benefit to both the young and aged.

TARA GWIN is prepared from the chemically pure extracts of the grape and other fruits. It is a concentrated brain and nerve food and tissue builder; it enriches the blood, regulates the circulation and is the best known preventive against tuberculosis, imparting great resisting power against this and other diseases. Tara Gwin is free from ingredients of a harmful or injurious nature, and may be safely taken by children of tender years, by the delicate student; it is particularly valuable to delicate young people and also to nursing mothers.

Tara Gwin is not a medicine, but a family non-alcoholic wine for the table and general use. Tara Gwin is recommended and prescribed by many leading physicians in the place of the false stimulants.

Tara Gwin may be ordered through your grocer or druggist, or directly from the NATIONAL NON-ALCOHOLIC WINES, LTD., Mt. Tara Springs, Sierra Madre, California.
